REMEDIATION AND REDEVELOPMENT (RR) NEWS FROM WISCONSIN DNR

Several alert readers noticed a problem in the October 7 RR News from DNR. The item titled GIS REGISTRY REMINDERS included two errors.

- The reference to administrative rules should have said that s. NR 726.05(3) limits map size for the GIS Registry, not NR 716.05(3).
- The actual limit on map size is 8 and a half by 14 inches, not 8 and a half by 11 inches. Larger maps may be submitted electronically as per our guidance at <http://dnr.wi.gov/org/aw/rr/archives/pubs/RR690.pdf>.

Thank you for pointing out these errors. Things are confusing enough.
